

SYSTEMS AND METHODS FOR
CREATING AND TRADING DYNAMIC SECURITIES

Abstract of the Invention

[0036] Systems and methods for creating and trading
5 dynamic securities are provided. Dynamic securities
according to the invention may preferably include any
security or non-securitized investment. To form the
dynamic security, a user may select a plurality of
securities including stocks, bonds, baseball cards and
10 modern art paintings to create a dynamic security. The
selection may be limited to a pre-determined list of
securities.
